

How WarmupIP Revitalized DoctorsRx Weight Loss's Email Campaigns and Revenue by **25%**

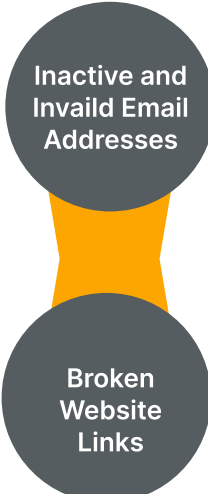

DoctorsRx Weight Loss, a well-established Shopify store specializing in weight loss products and services, faced a significant challenge after seven years of successful email marketing through Klaviyo. Initially, their campaigns performed effectively, achieving open rates of **15-25%** among engaged contacts and **5%** among unengaged contacts.

Recently, however, performance declined sharply. Open rates plummeted to **3%** for engaged contacts and **1%** for unengaged contacts. Standard advice from Klaviyo's support team—"keep verifying your contacts and focus on active lists"—produced no meaningful improvements.

Identifying the Core Issue: Domain Reputation Damage

The founder of DoctorsRx Weight Loss sought assistance from WarmupIP after learning about its success with similar Shopify merchants. An in-depth assessment revealed key problems:

- 1. Inactive and Invalid Email Addresses:** Email list decay allowed 2-5% of inactive or non-existent addresses to accumulate weekly. Temporary email addresses (which are active for only 30 minutes), further compromised list quality
- 2. Broken Website Links:** Dead links on the DoctorsRx website negatively impacted their domain's sender reputation.

Inactive and Invalid Email Addresses

Broken Website Links

How WarmupIP Restored Campaign Performance

Domain Health Check via Google Postmaster Tools :

1. WarmupIP confirmed that DoctorsRx's domain reputation was classified as "poor."
2. The team identified dead website links and provided actionable recommendations for immediate correction.

Domain Warmup Process Implementation :

1. A comprehensive domain warmup protocol was deployed to rebuild sender reputation.
2. Within one week, the domain's health showed substantial improvement.

Strategic Email Campaign Adjustments :

- 1. Domain Isolation:** Alternative domains were used for unengaged contacts to minimize risk.
- 2. Hygiene Practices:** Regular email list cleaning and monitoring were instituted to sustain deliverability improvements.

Measurable Results Achieved

DoctorsRx Weight Loss experienced a remarkable turnaround:

Hygiene Contacts Open Rate :

Improved from 3% to 32%.

Unengaged Contacts Open Rate :

Rose from 1% to 14%

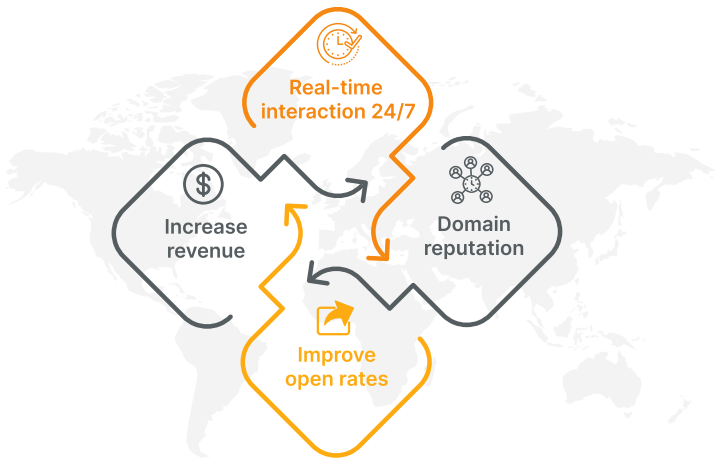

Revenue Growth :

Email-driven revenue increased by 25%, driven by higher engagement and better inbox placement.

A Long-Term Partnership Built on Success

Impressed by these results, DoctorsRx Weight Loss expanded its partnership with WarmupIP, entrusting domain management for four additional brands. WarmupIP now serves as their trusted consultant for domain health and email deliverability strategies.

Is Your Domain Reputation Affecting Revenue?

Don't let poor email deliverability hinder your business growth. WarmupIP can help you restore domain reputation, improve open rates, and increase revenue.
